

# Welcome to the Plate Playground!

Experience a modern rich-text editor built with **Slate** and **React**. This playgro  $E = mc^2$  just a part of Plate's capabilities. [Explore the documentation](#) to discover more.

## Collaborative Editing

Review and refine content seamlessly. Use `/`. Discuss changes using `@`. You can even have annotations!

## AI-Powered Editing

Boost your productivity with integrated AI SDK. Press `⌘+J` or `Space` in an empty line to:

- Generate content (continue writing, summarize, explain)
- Edit existing text (improve, fix grammar, change tone)

## Rich Content Editing

Structure your content with **headings**, **lists**, and **quotes**. Apply **marks** like **bold**, *italic*, underline, strikethrough, and `code`. Use **autoformatting** for Markdown-like shortcuts (e.g., `*` for lists, `#` for H1).

*Blockquotes are great for highlighting important information.*

```
function hello() {
  console.info('Code blocks are supported!');
}
```

JavaScript

Create [links](#), `@`mention users like `Alice`, or insert **emojis** `🔥`. Use the **slash command** `/` for quick access to elements.
